Schools Assured Of Insurance

Monterey Schools will continue to be insured, but apparently only if every school is equipped with an alarm system, Superintendent Allan J. Petersdorf told Monterey Peninsula Unified School District trustees recently.

Trustees approved the hiring of a consultant, David Minden, of Lewis Enterprises in Sacramento, to prepare specifications for the installation of alarms throughout the district. Until his report is filed, the school district won't know how much it will cost to install the alarms, Petersdorf said.

He noted that the board can levy a 10-cent tax to pay for the alarms, adding that the alarms might pay for themselves over a period of years, in terms of preventing major fires and burglaries. The alternative -- at least the one proposed by the Insurance Company of North America, which now carries the district's insurance policy -- would be to hire night and weekend guards for each school, the superintendent said. He estimated that plan would cost approximately \$500,000 annually.

Last month, following a fire at Fitch Junior High School, the Insurance Company of North America notified the school district that its insurance policy would be cancelled as of February 17. School district and insurance representative have met several times since then to discuss provisions for continued coverage.

PT&T Pays Property Taxes

Pacific Telephone paid a total of \$103,629 in property taxes in Seaside for the 1971-72 fiscal year, according to Don Boston, local manager.

Of this amount, \$17,874 was paid to the city of Seaside and \$85,756 for county, school and special tax districts purposes.

The total property tax bill for Monterey County amounted to \$1,841,669, an increase of 3.4 percent over the previous fiscal year. Of this amount, \$186,071 was paid to the cities, and \$1,655,598 for county school and special tax district purposes.

Happy smiles to each and every one of you. This should be a happy column today. (I hope so) There is an old saying that God made the world and rejoiced. God made man and rejoiced. Then God made woman. Since then neither God nor man has rejoiced. Well, that just doesn't hold water. Let the records show that there is at least one woman who really deserves mentioning. That is Mrs. Jean Barragan, the wife of our editor. Not many women could have carried on as she has done in the past month and a half waiting patiently with head held high, not knowing whether the next phone call would bring sad news or not, not knowing whether the look in the doctor's eyes was hiding some heartbreaking news or he was telling the truth. And still she tried not to draw her own conclusions, thereby preventing her most dreaded thoughts from influencing her faith and belief. I take my hat off to Mrs. Jean Barragan for never losing hope that her husband would survive when even the most skilled doctors had given up. We should all rejoice knowing there are women like that in this world.

This will be a happy column today. Just hold on. As you look through this copy of the paper you will notice that MAYFAIR MARKET is back with us after a very long absence. (Too

Parent Counseling In Marina

A series of weekly discussion meetings designed to help parents understand and cope with youth will be held at Los Arboles Junior High School through March 28.

Counselors at the junior high school are inviting parents who have children at any Marina area school to participate in the meetings, which will be held each Tuesday from 7:30 to 9 p.m. in the school's library.

Counselor Dick Bird explained that at the meetings there will be discussions about problems faced by parents in raising their children, understanding children's needs, learning about and sharing new ways to communicate with young people and about problem solving techniques.

PG&E Asks Gas Increase, Cites Costs

Citing higher costs of service to gas customers, Pacific Gas and Electric Company recently asked the California Public Utilities Commission to authorize a gas rate increase amounting to \$68.8 million annually for all customers, based on estimated revenues and expenses for 1973. Of this total increase, \$35 million will go for state and federal income taxes.

For the typical household the increase in gas bills would average about one dollar a month.

PG&E said it needs the rate increase to offset increases in operating expenses and the high cost of long-term financing. The company told the CPU it has spent more than \$130 million on new gas facilities in the past two years and in 1972 and 1973 it will spend approximately \$188 million on additional facilities to meet the growing demands of present and future customers.

These expenditures require the sale of long-term securities which at present high interest rates will further increase the average cost of capital to the company, it said. A rate of return of not less than 8.5 percent on PG&E's Gas Department investment is needed to attract the large amounts of new capital required at favorable rates and to provide a fair return to investors, the company said.

"We have spent half a billion dollars for new gas facilities since 1960, and we estimate that another half billion dollars will be needed for gas facilities in the next five years," S. L. Sibley, PG&E president, said.

"To finance this necessary expansion on reasonable terms we must raise our present level of earnings, which are substantially under the level found fair and reasonable by the Utilities Commission in our last general gas rate case."

"In addition, the national gas shortage and the competition for available reserves make it essential for PG&E to undertake substantial out-of-the-ordinary expenditures in an effort to provide necessary additional supplies of gas for its

customers' future needs. "We also are sharing in the cost of industry research toward gasification of coal. Although California has no commercial coal deposits, extensive reserves exist in western United States and Canada with-

Emergency Unemployment Compensation Is Now Available Through State

A senior Reagan Administration official announced recently that a new federal-state agreement providing emergency unemployment compensation insurance benefits has been implemented in California.

The official, L. A. Bailey, a deputy director of the Department of Human Resources Development and head of HRD's unemployment insurance program, said that any person may file who has exhausted all rights to benefits under the previous federal program of extended benefits (which started December 20, 1970) and also has no current rights under any other federal or state UI program.

Bailey said that most of HRD's UI field offices throughout California are ready to take claims. He stressed that claimants should not apply before that date because "we need time to brief our staff on the details of the new agreement so they can administer its provisions as smoothly and as promptly as possible."

Essentially, Bailey said, the financing of up to 13 weeks of benefit payments at the same weekly rate the claimant's regular benefit period. The exact number of weeks would be half of the claimant's regular benefit period, Bailey added. Bailey said the agreement is based on the federal Emergency Unemployment Compensation Act signed into law last month by President Nixon, which provides for 100 percent federal financing for the new program.

The agreement calls for benefit payments to begin when California's rate of insured unemployment reaches or exceeds a theoretical rate of 6.5 percent, consisting of the actual rate plus a 13-week exhaustion rate.

"Our actual insured unemployment rate at the latest figuring was 5.98 percent," Bailey said. "After adding the 13-week exhaustion rate, we have a theoretical figure of 7.66 percent, so we are ready to take claims under this new program."

Bailey pointed out that these rates should not be confused with the unemployment rate for California as a whole, which is 6.1 percent. "Although California's total unemployment rate has been going down for many months, temporary periods of prolonged unemployment do occur and this new agreement

in economic reach. "At present PG&E has about as good a supply of natural gas for its customers as any utility in the country. We believe the steps we are taking hold promise of developing the new supplies needed for the future.

is aimed at helping insured individuals in this situation," Bailey said.

The claims will be accepted for approximately six months, Bailey added, the final date for filing for this emergency coverage being June 24, 1972. However, any person who receives at least one week of benefits by June 30, will be entitled to his full benefit period of up to 13 weeks of additional payments, so the program will be helping some individuals up to and including the last week of September.

Bailey said claimants should bring their unemployment insurance identification booklet and social security card when filing. Emergency claims may also be filed on an interstate basis. The same rights of appeal from disqualification will be provided as are provided under the regular program, he said.

Talcott Will Visit Here

Republican Congressman Burt Talcott of Salinas will meet with students at Seaside's Cypress High School today (Thursday) between 9 and 10 a.m., Principal Harlan Hamilton said.

Hamilton explained that students in a civics class at the continuation high school wanted some information about government and politics and decided to invite local representatives to come to the school.

Talcott accepted the invitation, he said.

Students Will Teach Teachers

A group of Seaside elementary school teachers will have the tables turned on them for a while at Highland School Wednesday, February 16.

They'll be gathered there in the afternoon for in-service education in science -- learning new ways to teach their students about science.

As part of the program, six young men and women from Larkling School -- student

Williams 00 will be teaching the teachers ways to instruct their students. Part of the effort is being done with the cooperation of the American Cancer Society, which has supplied equipment.

To introduce teachers into an education unit dealing with the abuse of alcohol, drugs and tobacco, three boys from Williams' class will demonstrate a "smoking machine."

As explained by Williams, the youths -- sixth-graders Dale Nowlin, David Scheven and Gene Sutton -- will show teachers the effects of cigarettes on goldfish. Using a vacuum, the boys will filter the smoke from two cigarettees through two tanks of water -- each tank containing a goldfish. The teachers will be able to observe the effects of the smoke on the fish, which William said can die in about five minutes if not removed from the contaminated water.

ed men like yourself that the community's efforts to improve without prohibitively increased costs have been realized, and the Army's image in the community's eye has grown."

In addition to being honored by the community of Marina, Specialist Five Embley received a letter from his commanding general, Major General H.G. Moore, which stated,

"The valuable assistance which you have given to the Marina Fire Protection District is highly commendable, and has made an important contribution toward furthering good relations between the civilian and military communities."

Both the letter from the General and the commendation from the Fire Chief have been ordered placed in the personnel file of specialist Embley.

Williams pointed out that the students don't let the fish die, removing them before that happens.

Besides demonstrating the device, so that teachers can do the same experiment in their classrooms, the three students answer questions about smoking and its hazards.

A group of fifth grade girls--Patience Jacoby, Kimberly Poelman and Jill Raleigh -- will demonstrate biology experiments. Among other things, the girls will show teachers how they can in turn show their students the art of removing chlorophyll from leaves.

Black History Week to Be Observed

With this week designated as Negro History Week by the National Association for the Advancement of Colored People, a number of peninsula schools are currently observing contributions made throughout history by black persons.

Seaside High School has had a number of activities this week in recognition of Black History Week, which ends tomorrow (Friday). The students have set this week aside as Black Culture Week.

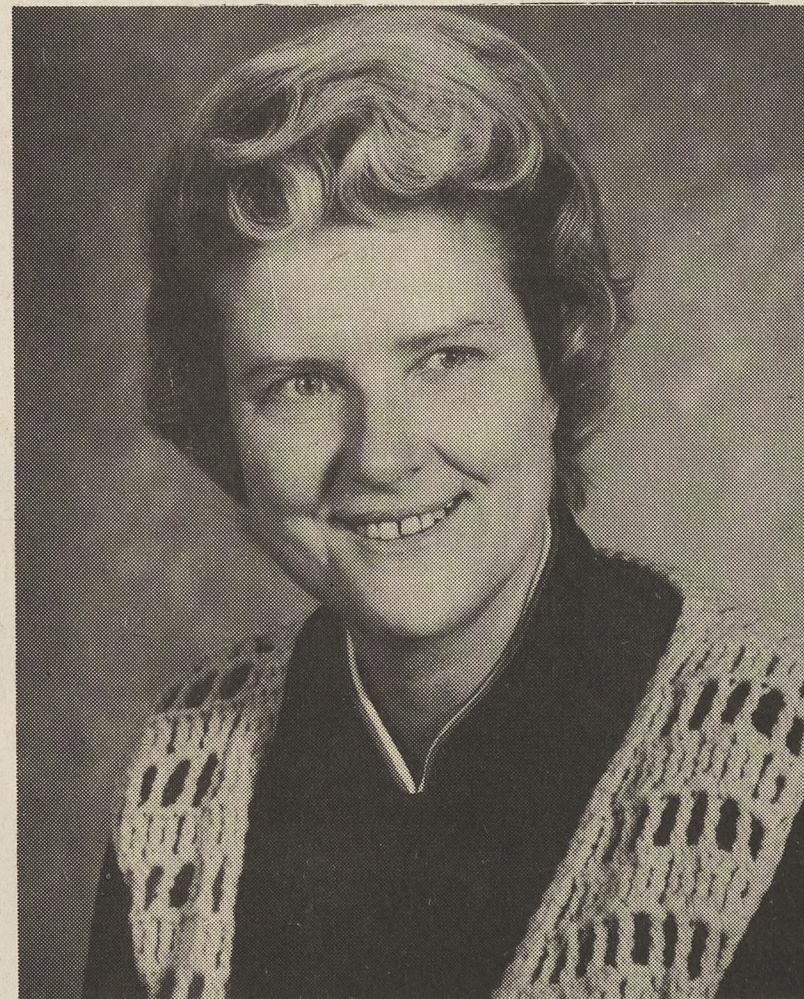

Concluding activities this week include a concert by Ebony and Blue, a popular jazz group, in the gymnasium from 9:30 until 10:25 a.m.

Tomorrow from 12:30 until 2:20 p.m., there will be a number of speakers at Hallock Cafeteria in Seaside High. Earlier in the week, Seaside High had readings by "Pure Black Poets," a concert by the Trumpeteers, a rock-spiritual group, an art exhibit and a variety show.

Monterey High School had a number of activities sponsored by the school's Black Student Union last week in observance of National Afro-American Week. Students heard black speakers, poets, music and theater groups throughout the week.

Other schools in MPUSD have held various activities honoring black contributions to the world in individual classrooms.

Grooving Around the Peninsula

with BETTY MANN

Hi there fellow peninsulans:

The small city of Del Rey Oaks has made news headlines again. And this time it is not the Moose Lodge with its "white members only" clause! Looks like Mr. Jim Crow has reared his ugly head in the Del Rey Oaks police department. After reading the article in the Monterey Herald recently about a civil rights suit that is being lodged against the Del Rey Oaks police department concerning an incident that occurred a few weeks ago, I and many other citizens are outraged by this flagrant misuse of justice on the part of the law enforcement officers of that city. In case any of you missed it, here is what happened:

A robbery was committed at a restaurant down the highway from the Monterey Airport. At the same time, a black gentleman was sitting in the Golden Tee Restaurant at the airport having dinner with his caucasian wife and another couple. He was interrupted from his dinner by the police from Del Rey Oaks, who pulled him aside for questioning about the robbery down the highway. An argument between the policeman and the "supposed" suspect developed. The black gentleman was questioned and embarrassed before his wife, his friends and all the other persons who were dining in the restaurant. To top it all off, one of the police officers called the black gentleman "Sambo," which we all know is an insult and a racial slur to any black person!

As I read this story, I was furious. I began thinking about how often things like this happen all over the country and how innocent black persons who stand up to protest to a policeman against racial slurs often get their head shot off and then the courts term the shooting "justifiable homicide." I wonder if this gentleman who was questioned had been out of sight of other individuals, would he have been just another innocent person who protested and ended up with a policeman's bullet in his brain??? I wonder how a policeman could be so naive as to think a man would be stupid enough to rob a restaurant and then take his wife and friends out to dine three or four blocks away from the crime?

But, believe it or not miscarriages of justice like this not only happen in the big cities, but also right here on our peninsula. I believe this is what they call a form of police brutality. I would like to emphasize that we have some good and righteous policemen here on the peninsula, who would never stoop so low as to take advantage of their position and their badge to inflict their own racial feelings upon another person who is at a disadvantage. Right on, to those police officers who attend school on their own behalf and take the courses that teach a person how to understand and deal with people from all cultures. If more law enforcement officers would be compelled to take courses like these perhaps incidents of this nature would be curtailed. I sincerely wish that the policeman who called the black man "Sambo" would be made to eat a gross of pancakes and then explain why and how he associates "Sambo" with black people? I hate pancakes—they're fattening.

Other more pleasant news of interest is that King Junior High School is in the process of going through major changes on its school policies. The new Vice Principal, Billy DeBerry, has asked cooperation of all parents of King Jr. High Students to please insist that the students adhere to certain procedures. Martin Luther King Junior High School has a "closed campus" policy. This requires all students to remain on school grounds during class time and the noon hour, unless permission to leave is granted by the parents. Permission may be acquired by submitting a written request to the school in advance. Kindly refer to the attendance Procedures of Martin Luther King Junior High School that were published in last week's edition of the POST.

Parents are cordially invited to offer assistance in visiting classes, patrolling the campus to keep down incidents, serving as officers and members on the Parent Advisory Committee, planning programs, chaperoning at school dances and on field trips, and etc.

Theatre Tour Is Planned

Senior Citizens of the Monterey Peninsula will have the opportunity to see "Applause" starring Lauren Bacall, at the Curran Theatre in San Francisco.

The Senior Citizens Committee announced that the Curran Theatre has made 40 orchestra tickets available for the evening performance on Tuesday night, March 21. This will be a "Night Owl Tour" and if it proves successful, there will be more to follow.

The "Night Owl" chartered bus will leave the peninsula around 3 p.m., making scheduled departures from the regular locations in Carmel Valley, Carmel, Pacific Grove, Monterey and Seaside. Adequate time will be available to have dinner before the performance at one of the many restaurants in the theatre area. After the theatre, the bus will be homeward bound at about 11:30 p.m.

Due to the demand for tickets for this popular performance, the last day that tickets will be available is February 20. If you are interested in this night owl tour, get your reservation in early.

Reservations can be made by calling 373-0398 or at the Carmel Foundation, 8th & Lincoln, Carmel. The total cost of the tour is \$17.95 which includes theatre ticket and transportation.

Art Is Displayed

U.S. ARMY RECRUITER

Every once in a while we hear about how our past enlistees are doing. This week I'm glad to report that Franklin Freitas of Seaside is a Sergeant and stationed in Vietnam as a Helicopter Crew Chief. Another of our past enlistees is just about finished with basic training at Fort Ord. Carlos Cruz-Gonzales of Marina will be going to the Basic Electronic Repair Course at Fort Devens, Massachusetts. The course normally runs 43 weeks.

Lawrence R. Carvalho of Marina stopped by the office last week. He was stationed at Fort Benning, Georgia and after a short leave at home will depart for Germany. Lawrence is a Specialist Four in the Motor Transport Field.

Our latest visitor to the office is Ray S. Tyrer of Fort Ord. Ray is a civilian now. He was discharged under TODAY'S ARMY early release policy. Ray served in Vietnam and Germany as a mechanic, the field that he chose for enlistment in July, 1969. Welcome home, Ray

and we wish you the best of luck.

We also received a call from a former enlistee and member of TODAY'S ARMY. Ralph Underwood of Marina has recently returned to the community. He was discharged as a Specialist Five and was a Data Processing Machine Operator while stationed in Alaska for his entire Army career.

This week I want to welcome the newest members of TODAY'S ARMY. Jonathan R. Evans, son of Mr. and Mrs. Donald E. Evans, Frank L. Craig, son of Mrs. Helga Craig and Walter D. Burrows, all of Marina. They chose a Regular Army enlistment.

A Seaside completes our latest list of TODAY'S ARMY volunteers. Michael A. O'Guinn, son of Mr. and Mrs. William A. O'Guinn, enlisted for duty with the 28th Army Band at Fort Ord. After basic training and a music refresher course at Norfolk, Virginia, he will be assigned as a trombone player. Michael is a Seaside High graduate and attended Monterey Peninsula College before enlisting.

If you would like information on any programs that are available for enlistment in TODAY'S ARMY, give us a call at 372-4742 or stop by 431 Webster Street in Monterey.

TILL NEXT WEEK.

See Wrestling Matches in Watsonville

Another double main event, a match featuring the "Mighty Midgits" and a challenge match, headlines the card at the February 20 wrestling matches at Santa Cruz County Fairgrounds.

The opener starts at 7 p.m. in the Harvest Festival Building on the fairgrounds. The box office opens at 3 p.m. the day of the match. More information about the card can be secured or reservations can be booked by calling 722-

1185 after 3 p.m. on the day of the match.

Featured in the midgits' tag match are the teams of Sky Low Low and Little Brutus vs. Sonny Boy Hays and the Tahiti Kid. The other half of the double main is a challenge match between Paul Demarco and Peter Maiva in two out of three falls with a one-hour time limit.

Pepper Gomez will second Maiva for this event. Also on the card are bouts

featuring Gomez vs. Roger Kirby and John Tolos vs. Antonio Rocca.

Advance tickets are on sale at Bozo's Liquors in Salinas and Country Cousin in Watsonville.

Ringside seats cost \$3. General admission is \$2.50 with youngsters between the ages of 6 and 12 seated in the general admission section for only a dollar. Children under six, accompanied by their parents, are admitted without charge.

Mexican Fiesta at Marshall

About 300 students will be enjoying a self-made Mexican Fiesta at Marshall School on Ft. Ord today (Thursday).

Principal Mezola Benton said the fiesta will represent a culmination of a study of Latin America by the school's sixth graders. The sixth graders are inviting students from grades four and five to take part in the fiesta, which will be held on the school's patio between 1 and 3 p.m.

Many parents have been involved in helping the sixth graders arrange the celebration, Mrs. Benton said.

The fiesta will feature Latin America singing and dancing, complete with costumes.

Chaplains Workshop Is Held

Twenty-four men from Ft. Ord and neighboring posts participated in a four-day human relations workshop last week. The workshop was sponsored by the post Chaplains Office.

The purpose of the workshop was to improve communication skills of chaplains and other selected men who work closely with people. Problem areas emphasized were drug abuse, racial tensions and changing life styles of

young Americans as they are currently seen in the military community. The objective of the workshop was to help the participants increase their sensitivity to these problems and enable them to serve as bridge-builders between polarized groups.

The workshop was staffed by behavioral scientists from the National Training Laboratories Institute for Applied Behavioral Science, Washington, D.C., under contract with the Chief of Chaplains, Depart-

ment of the Army. This organization, recognized as the founder and pioneer in the use of the laboratory method of experiential education for adults, is conducting 23 such events around the world.

CSM and Mrs. Wilbert Hopkins celebrated their 30th wedding anniversary during a champagne cocktail party, held at the Non-Commissioned Officers Club, Fort Ord, on Saturday, January 29.

The Hopkins' met in Washington, D.C., at a Government Girls Party on December 6, 1941--the day before Pearl Harbor was bombed. They married six weeks later on January 20, 1942. Alice Dixon of Washington, D.C., was the bride's attendant. The Groom's cousin, the late James Horne, served as bestman.

Mrs. Hopkins, the former Mildred Peyton, had come to Washington to work on October 1, 1941 from her home in New York City, where she was born and attended school. CSM Hopkins was born and received his education in Rocky Mount, Virginia and had gone to work in Washington, two years before he and his wife met.

In August 1942, CSM Hopkins was inducted into the United States Army. That was the beginning of his marvelous Army Career. He moved rapidly in rank and has seen duty in Japan, Korea, Vietnam and the European Theatre. With his wife, he served a tour of duty in Japan from 1947 to 1951, where Mrs. Hopkins continued to work in Army Federal Civil Service.

In July 1952, Mrs. Hopkins moved to Seaside to live with friends, while her husband returned to Japan to complete another tour of duty. She went to work with the Adjutant General Division, Fort Ord, on July 11, 1952 and has been continuously employed there to this date.

CSM Hopkins will complete 30 years of Army service in August 1972 and plans retirement shortly thereafter. Mrs. Hopkins will complete 30 years of Federal Government Civil Service on September 30, 1972. They both look forward to travel after retirement.

Concerned with the community in which they live, the Hopkins' have participated in social and civic organizations to help improve any situation. CSM Hopkins is a 32nd Degree Mason. He is Past Master of Peninsula Lodge #46, F.&A.M. He is also a member of the Victoria Coniserry Lodge #25, Oakland and of the Meme-lik Temple #36, bwtter known as the Shriners, also of Oakland. CSM Hopkins is proud to be a member of the Non-Commissioned Officers Association (NCOA) and the Association of the Army. He holds an active membership in the first Baptist Church of Pacific Grove.

Hopkins was elected for Honor Guard during the inauguration of President Johnson. He was appointed recently to serve on a Quantitation Screening Board, Department of Army level in Washington, D.C.

Mrs. Hopkins has been affiliated with many social and civic organizations on the Peninsula. She is presently president of the Business and Professional Women's Club of Seaside and Treasurer of the National Council of Negro Women of Monterey County.

Out of town guest attending the Hopkins' delightful party included Eugenia Bruce; Betsy McComb; Ella Mae Thomas; Mr. and Mrs. Charles Blackburn; Mr. and Mrs. Otis Freeman; Mr. and Mrs. Herman Bruce; Mr. and Mrs. James Brown; Mr. and Mrs. Jeffrey Moore and the Hopkins' nephew, Airman 3rd Class Carl Taylor of Rocky Mounty, Virginia, who was enroute to Vietnam.

What I Live For

By George Linnaeus Banks

I live for those who love me,
Whose hearts are kind and true;
For the Heaven that smiles above me,
And awaits my spirit too;
For all Human ties that bind me,
For the task by God assigned me,
For the bright hopes yet to fine me,
And all the "Good" that I can do.
I live to learn their story
Who suffered for my sake;
To emulate their glory,
And follow in their wake;
Bards, patriots, martyrs, sages,
The heroic of all ages,
Whose deeds crowd History's pages,
And time's great volume make.
I live to Hold Communion
With all that is Divine,
To feel there is a union
"twixt" Nature's heart and mine;
To profit by affliction,
Reap truth from fields of fiction,
Grow wiser from Conviction.
And fulfil God's grant design.
I live to hail that season
By gifted ones foretold,
When men shall live by reason,
And not alone by gold;
When man to man united,
And every wrong thing righted
The whole world shall be lighted
As Eden was of old.
I live for those who love me,
For those who know me true
For the Heaven that smiles above me,
And awits my spirit too;
For the cause that lacks assistance,
For the wrong that needs resistance,
For the future in the distance
And the GOOD that I can do.

Thanks For Stopping By

By Vernon Renn

Underneath the eucalyptus I sing
my favorite tune;
And listen to the wind careening
thru those leaves
That hold on to their mother:
The eucalyptus tree.

And leaning back on her mighty trunk
I felt her deep, sweet sigh,
As she whispered low, and just for me:
"Thanks for stopping by."

"You know, 'tis sad," she gently said,
"Why don't they heed my cry,
And feel my warmth, and feel my joy,
And feel my deep, sweet sigh?"

"So I'll say to you just one more time,
Thanks for stopping by."

long) You will also notice the many bargain prices on practically all of their food items. While talking with Sam Longwell, MAYFAIR manager, it was revealed that he is truly a fair employment employer. There is only one important requirement: that you be a member of the human race. And he really means it. On your next visit to MAYFAIR MARKET, while you are enjoying picking up your "triple", "double" or "bonus" Blue Chip Stamps, just let your eyes roam around the store. You will see what we mean. One of the main advantages of shopping at MAYFAIR is their central location. It is located in Olympia Plaza which is just loaded with a variety of shops. One stop does it all.

Glance further through the paper and you will see SAFEWAY. Safeway has its "Bonus Bargains", "Super Savers", "Discount Prices" and "Money-Back Guarantee" And they mean it. What you can not find at MAYFAIR, you probably can find at SAFEWAY. They are right down Fremont Boulevard from each other—just walking distance for you weight-watchers and joggers. Last week I really stocked up on the 8 oz. meat pies on sale for only 20¢. Furthermore, you have two SAFEWAYS to choose from. One is in Seaside and one is in Marina. But then don't forget the ones in Monterey, Carmel Valley, Pacific Grove and all points East, West, North and South.

Let's explore our paper some more. This is fun. Did you see the SUPER SAVE ad last week? Well if you missed it, we are really sorry. They had frozen dinners for only 39¢ each! If you took advantage of that gigantic bargain, I bow to you. You would have never known it if you hadn't seen it in our paper. (You lucky people)

But you are not the only lucky ones. We are lucky also. We have you for readers. Without you we would have no advertisers. Without advertisers we would make no money. Without money we would be on welfare. So I can just about truthfully say that over 15,000 people are keeping us from going on welfare. (We're lucky).

When you see the MAYFAIR, or SAFEWAY or SUPER SAVE ads, don't stop looking. Look for the LUCKY ad, the "Discount Supermarket". They are new to our paper, too. (Hey Ma, we're looking good!). We really don't want the other markets to hear this so hold the paper closer: LUCKY had a bargain last week that really shook me up. I had to call the printer to see if there was some typographical error. Under one of their items marked as "Key Buys" (for additional savings), they had a three pound can of, would you believe, Lady Lee Shortening for only 79¢. Now that was even better than a "Key Buy." That was the entire door to happiness. That one sale made my trip to Del Monte Shopping Center worth its weight in gas. I just had to call some friends and ask them to get me another three pound can when they did their shopping.

Then to balance my shopping off, I browsed through POOR OLD JOE'S MARKET ad. You know where that is. Looks like it's always crowded. Well, it is. But waiting in line is worth everything. I stopped by POOR OLD JOE'S Market to pick up some fresh fruit. His fruit tastes and feels like it just came off the tree. I mentioned this to Chuck. I said, "Hey Chuck, how come your fruit always tastes and feels like it just came off the tree?" He answered, as he was brushing the leaves off his jacket, "It did." Did I get a bargain? Unbelievable. I got ten pounds of tangerines for 99¢ and 20 of the sweetest white grapefruits for \$1 that you ever slapped across your mouth. I was feeling so good and was so happy that I saved all that money that I even got four pounds of walnuts for \$1. Do you have a blender? Well, I better not tell you my experiment or you, too, will gain five pounds. I'll just say that no drink (fruit drink) in the world could ever satisfy you more.

So just keep in mind, while you are looking through this little paper of ours, that we have some of the finest advertisers on the entire Monterey Peninsula. But you will never know unless you get out there and patronize them. So "git to gittin'".

Letters To The Editor

Editor: If we have a democracy the people must realize their responsibility and fulfill it. We, the citizens, are responsible for the type of Government we have.

I would like to suggest a few things that might help. Make the time as short as possible that people have to live in a community before they have some say in our government. Registrars should be paid enough to make it worthwhile to get out and make an extra effort to contact unregistered voters - including to the homes of shut-ins. Incumbents should have their activity record publicized in all news media. This should include the topic of bills sponsored and how the legislator voted. Not just the numbers of the bills. Then if he has a good record, we would cross party lines if need be to help him continue his work and if not then the same holds true to keep him out of office. Absentee voter ballots should be easier to obtain. If anyone sends a signed request, stating their reason for not being able to go to the polls, that should stand as a request for a voter's ballot, not for a form to fill out and mail back. This is a slow process and often causes a person to lose his vote. I know because I lost my opportunity to vote because of all these delays. Hospital mail delivery is slow at the best and I got my request for a voter's ballot form 2 days after the deadline date, while, if they had honored my signed request for an absentee voter's ballot I would have had time to vote.

The importance of voting should be stressed. People should be informed that their vote not only affects them but their children and grandchildren to come. I think if more young people and more women were to seek office, the voter turnout would be better.

Young people should be given instructions on how to register, how to vote - not who to vote for - and the importance of taking part in their government policies. Such classes should be in school.

We should all have sportsmanship. We should remember we have a democratic type of government. The majority rules. If we cast a losing vote, we should bow to the mandate of the people and work hard to make it succeed, remembering that if it does not prove satisfactory there will be another chance.

Bob Wood Reports

Nowadays, when parents start thinking about sending their kids away to college one of the first things I think they are going to ask for, after they have paid for their books and tuition, is going to be a bicycle.

I happen to be a Director of the California Aggie Alumni Association and have the privilege of attending three or four meetings a year on the Davis Campus. I have never seen so many bicycles in my born days. No more smokey, stripped-down jalopies on the modern campuses. They are being replaced by bicycles. I think most parents feel it's a good move. Not only from an environmental viewpoint, but from a practical viewpoint as well. In this small town of Davis there are even certain sections of the city streets which are clearly marked for bicycle traffic

only.

Because of this increase in bicycles throughout the state, theft of bicycles increased to a point last year where there were over 400,000 stolen within California alone. These ranged from three-wheelers to expensive ten-speed racers of all sizes and shapes. Many communities have thriving black market businesses dealing in used bikes and we are told that some buyers can actually order the size, color and equipment they want from these illegal dealers in stolen goods.

To date, there is no state wide system of licensing that has been established. Thousands of stolen bikes are sold at public places each year with law enforcement officials unable to do anything to stop the practice. Two bills have been introduced in the Legislature this year aimed at eliminating such theft by creating the nation's first state wide licensing system for bikes. I intend to support these measures in hopes that the efforts being put into such legislation will deter the growing number of thieves who have their eye on your child's—or your neighbor child's—bicycle, let alone the young adults who may be using a bicycle for their only means of transportation on our many state college and university campuses.

As I See It

By Mel Vercoe

Taxes could be lowered, if someone can find more than two or three people willing to bring the total wrath of the community down on them for suggesting a simple solution.

Senseless vandalism has caused so much damage to schools that the insurance carrier for the Monterey Peninsula Unified School District is demanding protection devices such as alarm systems in the schools to try to reduce damage. From somebody will have to come about a hundred thousand dollars per year to pay either for the damages or for the means to prevent the damages, unless, of course, someone can find a cheaper method.

A suggestion was made that guards be hired to prevent the vandalism and this idea was shot down because the cost of the guards would be greater than the cost of the vandalism. This was correct, except that guards don't really have to cost anything. There are many unemployed people receiving unemployment compensation, and they do not have to do a single thing in return except to register for work either at their union halls or at the state employment office.

I can't personally see anything wrong with letting them volunteer to sit in their cars in groups of two or three at the schools in the district and

minating such theft by creating the nation's first state wide licensing system for bikes. I intend to support these measures in hopes that the efforts being put into such legislation will deter the growing number of thieves who have their eye on your child's—or your neighbor child's—bicycle, let alone the young adults who may be using a bicycle for their only means of transportation on our many state college and university campuses.

Did you realize that every one of our pay phones (and there are over 125,000 of them in California) now has a location card? You might ask why a pay phone would need an address, but sometimes knowing exactly where you're phoning from can prove to be important—like in an emergency when you have to call an ambulance, the police or the fire department. Or when someone is coming to pick you up and wants to know where you're calling from.

Putting location cards on pay phones is just one of the things we're doing to try to make them more useful to you.

Smart shoppers know how helpful the Yellow Pages can be when you're looking for a hard-to-find item. Without leaving your home you can get information on just about any product or service imaginable.

By reading the ads in the Yellow Pages or by calling the listed telephone numbers, you can find out store hours, credit arrangements, delivery services and much more.

The next time you're looking for an item that's hard to find, check the Yellow Pages before you leave home. You'll find whatever you're looking for—fast.

Do you know about the fast way to find the phone numbers of government offices? For your convenience, the Yellow Pages of the Monterey County phone book has a quick reference page containing the numbers of city, county, state, and federal offices that people call most frequently. Just look in the Yellow Pages under "G" for "Government Offices."

CALCUTTA BEEF CURRY

Coconut milk can easily be made by soaking grated coconut flakes in water and pressing the coconut dry through a sieve.

1 pound lean beef;
1 pint of water;
1 tablespoon coriander seed;
1 teaspoon turmeric;
1 teaspoon curry powder;
1 teaspoon chili powder;
pinch of black pepper;
pinch of ginger;
1 tablespoon butter;
1/2 pint coconut milk;
1 sliced onion;
1 crushed clove garlic;
salt;
lemon juice.

Remove any fat from the meat, cut into pieces and simmer in water until just tender. Mix together the ground ingredients and pepper and make a paste with a little coconut milk. Fry the onion and garlic till tender and add the paste. Then continue to fry for a further three or four minutes. Add the meat and a little stock, bring slowly to boil and add the coconut milk, salt and lemon juice. Serves four.

February Is Heart Health Education Campaign Month

With the theme "Beat The Big One," pharmacists throughout California will make available to heart patients the new "EKG Heart-Saver" wallet cards during a Heart-Health Education Campaign in February.

The month-long program is being conducted by the California Pharmaceutical Association's Academy of Community Practice in cooperation with "Your Heart Association."

During the campaign, a special program of photographing and reducing individual electrocardiograms to wallet-size cards will be made available to the public by California pharmacists for \$3.

These "EKG Heart-Saver Cards" may save a life and expedite diagnosis and treatment in the evidence of sudden heart attack, according to E. Ronald Shewfelt, co-director of the Academy of Community Practice.

"A comparison of a new EKG taken of a heart attack victim with the EKG card in a wallet will quickly inform any attending physician of a person's condition and of any further damage -- or progress of heart disease -- in a patient," he explains.

Shewfelt said that everyone should consult his or her physician about having an EKG test and that the EKG "Heart-Saver Card" would be of particular benefit to those with healthy hearts.

"If a person were suddenly stricken, a second EKG compared with a normal one on the wallet card would expedite diagnosis by a physician," he added.

Persons wishing to obtain "EKG Heart-Saver Cards" may pick up an application packet from any CPHA-member pharmacy and return it with a copy of his or her latest EKG from the attending physician.

Upon a \$3 fee to cover costs, the pharmacist will then send the EKG chart for processing, telephoning to the patient when the "Heart-Saver Card" is ready to be picked up.

Free heart-health literature also will be made available at community health information centers in pharmacies throughout the state.

The heart-care educational material calls attention to many causes of heart trouble such as smoking, over-weight and over-exercising and will alert the public to some of the symptoms of possible heart trouble and what to do to help victims of sudden heart attacks.

"Heart disease in its various forms is the nation's number-one killer, but proper heart care and quick and proper action when heart attacks happen can and do prevent many deaths," Shewfelt declared.

Cardiovascular disease, that is diseases of heart and circulation, will cause the deaths of 1,098,000 Americans in 1972; 89,600 in California alone, it is estimated.

"Over 27 million children and adults in this country are afflicted by one form or another of cardiovascular disease which will account for 54 percent of deaths from all causes this year in the U.S.," the California pharmacy leader said.

The major cardiovascular diseases include atherosclerosis (hardening of the arteries); hypertension (high blood pressure); heart attack

(when sufficient oxygen is prevented from reaching the heart muscle by any one of several causes); stroke (when blood is cut off from certain portions of the brain in several different ways, including hemorrhage).

Other causes are congestive heart failure (when the heart's pumping power falls well below normal and fluid begins collecting in the lungs, other organs and limbs resulting from one of any number of causes); Rheumatic Fever (primarily thought of as a child's disease which infects scars and deforms the heart valves) and congenital defects (malformations of the heart and blood vessels at birth which afflict thousands of children born each year).

Tips on how to reduce the risk of heart attack, symptoms and what to do in case of heart attack and heart attack first aid are available in a free brochure entitled "This Is Your Heart Saver," available at community pharmacies throughout California during February.

"Know the facts about your heart, it could save your life and February is a good time to have an annual heart check," advises the California community pharmacy leader.

Boy Scouts Celebrating This Month

The Anniversary Celebration of the Boy Scouts of America during the month of February marks the 62nd birthday of the Nation's largest youth organization.

In the Monterey Bay Area Council 104 Packs, 111 Troops and 61 Explorer Posts will have an opportunity to participate in one or more of the Anniversary month activities.

Incorporated in Washington D.C. on February 8, 1910, this date was observed as part of Scout Week for 60 years. In 1971 a month long celebration was initiated in order to describe more accurately the yearly observance made by Packs Troops & Posts.

BOYPOWER "76" continues for the fourth year in 1972. The objective of the plan is to deeply involve a representative one-third of all boys in America in the Scouting movement. The Monterey Bay Area Council surpassed its 1971 boy membership goal to reach a new high in membership of 8,478.

National Activities will include for 1972: Project SOAR, "Save Our American Resources," for the second straight year; operation Reach the Scouting plan of action to fight drug abuse and the Reader's Digest Association, B.S.A. Public Speaking Contest.

Many units will be conducting Ble & Gold banquets or Troop Courts of Honor.

Packs and Troops may earn a 1972 Anniversary award ribbon by reporting their unit activities.

NEW OFFICERS - Members of Ft. Ord Women's Golf Association elected their officers for 1972. They are (front row, from left) Mms.: J.F. Simmons, captain; L.P. Peresenyi, publicity chairman; M.M. Russell, handicap chairman; R.L. Rudat, rules chairman; B.F. King, assistant tournament chairman; (back row, from left) J.R. Pounds, assistant hospitality chairman; J.K. Taft, co-captain; D.P. Boyer, secretary-treasurer; and H.C. Davis, membership chairman. Anyone interested in joining may call 242-3268 or 242-5651.

MISSING - Masa Melville, 17, has been missing from her home in Marina since 2 p.m., Friday, February 11. She was last seen wearing blue knit t-shirt (short sleeve), bellbottom blue jeans and lace ankle length brown shoes. Masa, who may also be using name Kobayashi, is 5'7-1/2" tall and weighs between 130 and 140 pounds. She has long dark brown hair, brown eyes and ivory skin. Reward is offered for any information leading to whereabouts of girl. No questions asked and no charges will be filed. If you have any information call 384-7208 collect or send letter to Mrs. Grace Melville, 178 Palm Avenue, Apt. G, or to PO Box 524, Marina, CA 93933.

Sales Best Since 1968

Lincoln-Mercury Division's Oakland sales district closed 1971 with its second consecutive record new car sales month.

R. Fred Janek, the division's district sales manager, said the record December also gave the district its second best calendar year.

Only 1968 surpassed the 1971 total. Janek reported December

new car sales totaled 1745 compared to 1636 a year ago and 1738 in 1966, the former record for the month.

The year's sales reached 19,577 compared to 18,409 in 1970.

Especially important about the December sales, Janek said, was the strong performance of the domestic models sold by the division's dealers.

19-Year Old's Work Is Now On Display

Currently on display in Seaside City Hall Art Gallery are some 21 oil paintings with Oriental themes by a 19-year old Chinese refugee-artist, Christopher P. B. Lee, who resides in San Francisco.

Lee started his artistic career at the age of 12 at Hong Kong's International Art Academy, where he graduated with the highest honor. He paints portraits, flowers, animals, landscapes, sceneries and still life, but he specializes in expressing the Chinese fishermen, their junks and their way of life.

His highly individualized and imaginative style in oil painting may be termed as a new creation of East and West cultures. He was proclaimed as the most promising young artist of Hong Kong while he was there and he has had several exhibitions in the Orient.

1972, at 11:00 o'clock a.m., in the
office of the County of Monterey and
County of Monterey, State of California,
the undersigned Trustee, as duly ap-
pointed Trustee under and pursuant to
Deed of Trust, will sell at public auc-
tion to the highest bidder for cash,
in lawful money of the United States,
the following described real property sit-
uate in the County of Monterey, State
of California, and bounded and de-
scribed as follows, to-wit:

Lots Numbered 1076 and 1078 in Block
Numbered 16, as said Lot and Block
are shown on that certain map en-
titled, "Map No. 3 of Del Monte
Heights", filed for record January 8,
1968 in the office of the County Re-
corder of the County of Monterey,
State of California, in Volume 2 of
Maps, "Cities and Towns", at page 12.

Said sale will be made without covenant
or warranty regarding title, possession
or encumbrances, to pay the remain-
ing principal sum of the note secured by
the power of sale conferred in a certain
Deed of Trust, executed by C. H. SAND-
ERS and MARY SANDERS, his wife, as
Trustees, to the FIRST MONTEREY
COMPANY, a California corporation, as
Trustee, for the benefit and security of
MONTEREY SAVING AND LOAN AS-
SOCIATION, a California corporation
dated October 30, 1970, and recorded
November 5, 1970 in Reel 675, at page
1037, Series 26927.

Notice of Default of said obligation and
election to sell, as said Lot and Block
are shown on that certain map en-
titled, "Map No. 3 of Del Monte
Heights", filed for record January 8,
1968 in the office of the County Re-
corder of said Monterey County in the
28th day of October, 1971, in Reel 722,
at Page 304, of Official Records of Mon-
terey County, California, Series 34195.
Nothing has been paid on account of the
principal or interest on said loan sub-
sequent to the filing of said Notice of
Default.

This notice is given in compliance with
the written application heretofore made
on the Trustee by the said Beneficiary.
The owner and holder of the promissory
note and the indebtedness secured by
said Deed of Trust, or any other person
may purchase at said sale.
